

CANDIDATE LIST SUBSTANCE INFORMATION (REACH ARTICLE 33)

The REACH Regulation (Reg. EC 1907/2006) Article 33.1 is aimed at enabling professional customers of supplied products to take any relevant risk management measures that may arise from the presence in articles of Substances of Very High Concern (SVHCs) listed on the current Candidate List (CL) for Authorization, in order to guarantee their safe use.

DAF Trucks N.V. and PACCAR Parts Europe support the underlying goals of REACH generally, and Article 33 specifically, which are consistent with our own commitment to promote the responsible manufacturing, handling and use of our products.

Presence of Candidate List Substances

To the best of our knowledge based on information received from our supply chain and our own product data, the Candidate List substances present in component articles at greater than 0.1% w/w are those shown in the table below for the specific vehicle/part. DAF/PACCAR Parts is constantly updating the information regarding SVHCs; the list below is therefore continuously updated.
